

WORLD REWILDING DAY

Impact Report 2023

Rewilding
THE GLOBAL ALLIANCE

Rewilding is an attitude, a vision, a healing tool. It is that most powerful of things - an idea whose time has come. The moment of change is **always NOW**.

Behind rewilding is a **powerful and realistic vision**, a vision of hope: We can live in a rich, diverse, beautiful, resilient world with healthy ecosystems and rebounding animal populations.

It's up to us to make it a reality.

"Hope" was the theme for World Rewilding Day 2023 and it reverberated throughout the global rewilding community.

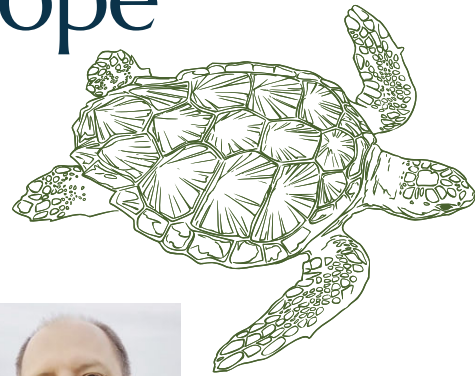

People around the world made films, launched books, held events and sent messages of hope to their communities. On every continent, thousands of people - possibly already millions - are working for the return of nature. **It is happening now.**

Thank you for your hope, commitment and inspiring action. Together we are building a movement that is turning hope into reality.

Personal messages of hope **FROM EACH CONTINENT**

Solutions exist, but the change in belief is what needs to be done

The GRA launched the Global Rewilding Communicators Network; now at 85+ skilled storytellers, film-makers and authors around the world.

Some examples of the beautiful posts from the day:

Together, **LET'S REWILD HOPE...**

“

During one of the webinars, after the visualisation, **Alessandro Mereghetti** said: Beautiful visualisation, makes me think of the quote from A. Roy "Another world is not only possible, she is on her way. On a quiet day, I can hear her breathing."

“

Rebecca Solnit, from Hope in the Dark:

"...hope is not like a lottery ticket you can sit on the sofa and clutch, feeling lucky...hope is an ax you break down doors with in an emergency... hope should shove you out the door, because it will take everything you have to steer the future away from endless war, from the annihilation of the earth's treasures and the grinding down of the poor and marginal"

Rewilding is Hope. Together, let's rewild hope.

**Join us as we build the hopeful,
growing, global rewilding
movement.**

PUBLICATION INFORMATION

April 2023

The GRA is a network of rewilding practitioners, communicators and researchers. We are the global umbrella body for the rapidly growing global rewilding movement, founded in 2020. We are incorporated as a Swiss non-profit Association, supported by the WILD Foundation and Re.Wild.

Our vision is a world where rewilded lands, lakes, rivers and seas provide a secure future for people, nature, and the climate.

Our work is based on the [Global Charter for Rewilding the Earth](#), a product of the 11th World Wilderness Congress.

The Directors of the GRA are: Karl Wagner (Austria), Magnus Sylvén (Switzerland), Alister Scott (UK).

This report was produced by May Scott, social media manager.
